Page 1: System Overview & Portal Navigation

How the platform is organized and where to find everything as Admin.

What is the Platform?

The LB Maths Tuition Platform connects tutors and students for online lessons via Microsoft Teams. Students access a distraction-free lobby to launch their lessons. Tutors manage their timetable and students. As the **Head Tutor (Admin)**, you have full access to schedule lessons, set prices, and manage all accounts.

The Three User Roles

Role	How They Log In	What They Can See & Do
Head Tutor (Admin)	/login with Email + Password	Access to /admin. Can view all students, all tutors, full revenue data, and change all settings.
Tutor (Staff)	/login with Email + Password	Access to /tutor. Can view only their assigned students, upcoming lessons, and their own pay.
Student (Tutee)	4-Digit PIN or Magic Link	Access to /student lobby. Shows live countdown, delay alerts, and the Teams join button.

The Admin Top Navigation Bar (Tabs)

When logged in at https://portal.lbmathstuition.co.uk/admin, you can switch between 6 main tabs at the top of your screen:

- **Timetable:** View all scheduled, live, and past lessons. Book new lessons or edit existing ones.
- **Students:** Complete directory of students. Check PIN status, copy Magic Links, or add new students.
- **Tutors:** View all active tutors, their assigned student counts, and reset tutor passwords.
- **Revenue & Analytics:** Monthly financial breakdown showing student fees, tutor payroll, and profits.
- **Resources:** Upload worksheets, links, and past paper revision materials for students.
- **Settings & Logs:** Download complete database backups and inspect the activity audit trail.

REAL-TIME PRESENCE: You can quickly check if a student or tutor is currently online via the green indicator dot next to their name anywhere on the dashboard.

Page 2: Timetable & Lesson Scheduling

How to book lessons, prevent double-bookings, and manage live sessions.

How to Schedule a New Lesson

1. Click the blue **'Schedule Lesson'** button at the top of the Timetable tab.
2. Select the **Tutor** and the **Student** from the dropdown menus.
3. Choose the **Date**, **Start Time**, and **End Time**.
4. Paste the **Microsoft Teams Meeting URL** (or leave blank to add it later).
5. *Optional:* Tick **'Repeat Weekly'** and pick the number of weeks (e.g. 4, 8, or 12 weeks) to automatically generate repeating sessions.
6. Click **'Save Lesson'**.

Key Scheduling Safeguards

Safeguard Feature	How It Works	Why It Matters
Conflict Detection	Checks both tutor and student calendars in real-time before saving.	Prevents embarrassing double-bookings or booking over a tutor's holiday.
5-Minute Link Unlock	Students see the countdown, but the *'Join Teams Call'* button only unlocks 5 minutes before start.	**Safeguarding:** Ensures students never wait alone in an unsupervised video call.
Premature Complete Warning	If you or a tutor click 'Complete Lesson' before start time, a confirmation modal pops up.	Prevents accidentally closing and archiving lessons that haven't happened yet.
Live Delay Notices	Click **'+5m'** or **'+10m'** if running late. An alert immediately pops up on the student's screen.	Stops anxious parents and students wondering why the tutor hasn't joined.

Rescheduling & Cancelling Lessons

- **To Reschedule:** Click the session card $\rightarrow$ click *'Reschedule'* $\rightarrow$ pick the new date and time.
- **To Cancel:** Click the session card $\rightarrow$ click *'Cancel Lesson'*. You can choose whether to notify the student.
- **Student Topic:** Students can type what topic they want help with (e.g. *'Quadratic equations'*) before the lesson. This appears directly on the lesson card for the tutor.

SECURITY RULE: Only the Head Tutor (Admin) can reschedule lessons. Tutors can view their timetable and report completion, but cannot alter scheduled times without admin assistance.

Page 3: Student Roster & Credential Management

Enrolling students, 4-digit PINs, Magic Links, and security lockouts.

Adding a New Student

1. In the **Students** tab, click the **'Add Student'** button.
2. Enter the student's **Full Name**.
3. Enter the **Parent / Guardian Email** and optional phone number.
4. Choose their default **Assigned Tutor** from the dropdown.
5. Enter the billing rates (e.g. Student Pay: £45/hr, Tutor Pay: £25/hr).
6. Choose a unique **4-digit PIN** (or leave blank for the system to generate one).
7. Click **'Create Student'**.

How Students Log In (PIN vs. Magic Link)

Login Method	How the Student Uses It	Admin Best Practices
4-Digit PIN	Student goes to portal.lbmathstuition.co.uk, selects their name, and enters their 4-digit PIN.	Best for desktop laptops. PINs are private and easy for students to remember.
Magic Link	Student clicks a direct link like .../student?key=STU-ALEX-1A2B.... They enter instantly without a PIN.	Best for tablets (iPads) or phones. Send this link to the parent to bookmark on the student's device.

PIN Lockouts & How to Unlock Them

- **Security Lockout:** If a student enters the wrong PIN **5 consecutive times**, their account locks for **15 minutes** to prevent guessing.
  - **How to Unlock:** Go to the *Students* tab $\rightarrow$ find the student marked with the red *'PIN Locked'* badge $\rightarrow$ click **'Unlock Account'**. The student can now log in immediately without waiting.
  - **Cycling Magic Links:** If a student loses their device or a magic link is shared accidentally, click **'New Magic Link'** on their card. The old link becomes invalid instantly.

Student Status: Active vs. Inactive (Holidays)

When a student takes a term break or pauses lessons, toggle their status to **'Inactive'**. Their past lesson notes, ratings, and invoices remain completely safe, but they are hidden from daily scheduling dropdowns so your roster stays tidy.

PRIVACY GUARANTEE: Student pay rates (what families pay) are strictly confidential and visible ONLY to the Head Tutor. Tutors cannot see student fees.

Page 4: Tutor Management & Staff Access

Adding tutors, setting passwords, and managing tutor availability.

Adding a New Tutor

1. In the **Tutors** tab, click the **'Add Tutor'** button.
2. Enter the tutor's **Full Name**.
3. Enter their **Email Address** (e.g. sarah@lbmathstuition.co.uk).
4. Set an initial password (minimum 8 characters).
5. Click **'Create Tutor Account'**.
6. The tutor can now log in at portal.lbmathstuition.co.uk/login.

What Tutors Can and Cannot See

Feature / Area	Tutor Access Level	Notes & Restrictions
Their Own Students	Full View	Can view lesson history, past lesson notes, and student topic requests.
Other Tutors' Students	Hidden (Blocked)	Tutors cannot see students assigned to other tutors.
Tutor Pay Rate	Visible	Shows how much they will earn for their completed lessons.
Family / Student Fee	Hidden (Blocked)	Tutors never see what the family is charged.
Lesson Completion	Can Complete & Note	Tutors mark lessons complete and write session summaries.

Resetting a Tutor Password

- If a tutor forgets their password, go to the *Tutors* tab and click **'Edit / Password'** on their card.
  - Enter the new password and click *'Update Password'*.
  - **Automatic Security Log Out:** Updating a password automatically revokes all previous login sessions on any phone or laptop the tutor was logged into.

Tutor Unavailability & Holiday Blocks

Tutors can add their own unavailability directly from their dashboard:

- **Busy Slot (Hourly):** e.g. Doctor's appointment on Tuesday 2:00 PM – 3:00 PM.
- **Holiday (Multi-Day):** e.g. Summer Holiday from July 10 to July 24.

Once entered, the admin scheduling tool will automatically block and warn you if you try to book a lesson for that tutor during those times.

HELPFUL VIEW: You can inspect any tutor's weekly timetable by clicking the 'Weekly Calendar' icon on their card in the Tutors tab.

Page 5: Billing, Pay Rates & Revenue Analytics

How lesson payments work, historical rates, and downloading financial reports.

The Revenue Analytics Hub

Click the **Revenue & Analytics** tab in the Admin Portal to open your business dashboard. Here you can see exactly how many hours were taught, total client billing, tutor payroll, and your net profit margin.

Metric	Calculation	Business Purpose
Total Billed	Sum of all studentPay for completed lessons	Gross tuition turnover collected from families.
Tutor Payroll	Sum of all tutorPay owed to tutors	Total wages due to tutors for lessons taught.
Net Margin	Total Billed - Tutor Payroll	Net business profit retained by LB Maths Tuition.
Hours Taught	Total duration of completed lessons	Helps track workload capacity across terms.

Historical Rate Snapshots (Important)

- **What is it?** When a lesson is marked complete and archived, the system takes an exact snapshot of the student fee and tutor pay at that exact moment.
- **Why is this vital?** If you increase a student's rate from £40 to £45 in September, your past lessons from June and July remain permanently locked at £40. Past payroll and accounts are never altered by future rate changes.

Billing Duration Modes

Under the *Settings* tab, you can choose how pay is calculated for odd lesson lengths:

- **Proportional (Default):** Pay is calculated strictly by minutes (e.g. 45 min lesson at £40/hr = £30.00).
- **Round to Nearest Hour:** Rounds up/down to whole hours.

Exporting to Excel / CSV

At the end of each month, click the blue **'Export to CSV'** button at the top of the Timetable or Analytics tab. This downloads a clean spreadsheet listing every lesson date, student, tutor, duration, fee, and tutor pay for simple accounting.

PAYROLL TRACKING: You can mark tutor wages as paid by ticking 'Tutor Settled' on lessons. This helps you track which lessons have already been paid out to staff.

Page 6: Resources, Classroom Tools & Backups

Built-in calculator, formula sheets, audit logs, and data backups.

Built-in Classroom Tools

Tool	Where to Find It	How It Helps During Lessons
Casio fx-83GT X ClassWiz	Calculator icon in top navbar	Virtual scientific calculator with exact math engine (fractions, exact π, surds). Students and tutors can pop this up directly on screen.
Formula Sheet Hub	Formula icon in top navbar	Instant reference to official GCSE (Edexcel, AQA) and A-Level (Edexcel, AQA, OCR) exam booklets and formula sheets.
Exam Countdown Widget	Timer icon on student lobby	Displays exact countdowns to upcoming GCSE and A-Level maths exam papers to keep students motivated.
Shared Resources	Resources tab in navbar	Upload and tag revision links, practice worksheets, and YouTube video tutorials organized by topic (Algebra, Geometry, etc.).

Audit Logs (Activity Tracking)

Under the **Settings & Logs** tab, click **'Activity Logs'**. This displays a tamper-proof timestamped audit trail of:

- Who scheduled or rescheduled a lesson.
- Who posted delay alerts (+5m / +10m).
- When attendance was confirmed by tutor and student.
- Any cancellations or edits to lesson notes.

How to Download a Complete Database Backup

1. Go to the **Settings** tab in the Admin Portal.
2. Locate the **Database Backup** card and click **'Download System Backup (.json)'**.
3. The system generates an encrypted snapshot containing all users, lessons, settings, and shared resources.
4. *Security Feature:* All tutor password hashes are automatically scrubbed from backup files for safety.
5. Save this backup file once a month onto a secure backup drive.
